

Broadband

Celebrating 30 years

Improve your service and Internet speed with quality broadband from KBR

Experts in the delivery of Broadband solutions

It's no longer acceptable for students and teachers to experience excessive buffering, slow loading times and poor service when connecting to their broadband.

If your school suffers from slow broadband, it could be affecting your pupils' learning. Now is the time to get your establishment up to speed.

KBR works with establishments of any size to offer a full range of Internet services, getting you up to speed – fast.

What are the benefits of updating your Broadband?

Fast broadband allows your students to experience an enhanced quality of interactive learning in every classroom, improving pupils' engagement.

It is highly likely that you will be introducing more and more mobile devices into your classrooms so it is vital your broadband can cope. Faster broadband means more capacity for speed no matter what the demand.

Obvious, but crucial – keeping your broadband regularly updated gives you faster Internet speeds. This means less waiting, less frustration, and more learning.

Why choose KBR?

We have a proven track record and a huge amount of experience in delivering and installing broadband solutions, including one of the largest broadband wireless networks in Europe.

Our connectivity services cover the full range of options in the UK today – from broadband to multi gigabit leased lines, wireless and satellite, fully managed by the KBR team.

The process of updating your broadband with us is also extremely simple. We look at the unique needs of your establishment and work with you to advise the best solution, depending on which services are available in your area.

If you're thinking about updating your WiFi, you need to consider your broadband. High-speed wireless access points need a high speed connection for maximum throughput. We can provide you with both.
